

The diversity and complexity of work performed by architects and engineers creates the need for professional insurance which is comprehensive, flexible and provides claims support for potentially very large and intricate claims.

Supporting the smallest to the largest architecture and engineering firms, QBE's understanding of this growing sector within the MENA region is invaluable.

Ultimately, firms want to know that their claims will be handled fairly and efficiently. QBE has an established claims team with a vast international experience of claims management..

## Target areas

We will consider all areas of construction disciplines including the following:

- Structural and civil engineering
- Mechanical, electrical and HVAC engineering
- Architecture – including masterplanning
- Interior design & refurbishment
- Project management & supervision
- Landscape architecture.

## Out of appetite

- Off-shore/near-shore
- Marine
- Soil, piling and foundation
- Setting out.

## Capacity

- Significant limits of up to US\$ 25 million available.

## Wordings ability

- We have the ability to write risks not only on our market leading wording as well as on all other market standard competitor wordings.
